

**NEW ACCESSORIES COMING IN JULY:**

MVE/Chart will be introducing several new accessories this summer. These will be available sometime in July.

1. We will begin to offer enlarged square canister racks for the XC47/11-6. The increase in size will allow all 25 cell boxes currently in use to fit, including the Nalgene box. This will also accommodate 25 external threaded cryo-vials. The part number for this is 11554720 and the list price will be \$75 each.
2. With the success of the Cryo-shipper Data Log we are developing data shipping logs for all MVE vapor shippers, except the SC2/1V. The plastic shipping container used for MVE dewars will fit the slightly extended overall height of the added logger by simply removing a layer of the bottom foam pad. The part numbers and list prices are as follows:

MODEL	LOGGER PART NUMBER	EST. LIST PRICE
SC4/2V	11554341	\$1190.00
SC4/3V	11554367	\$1190.00
XC20/3V	11554375	\$1190.00
CRYO-MOOVER	11554383	\$1200.00
CRYO-SHIPPER	11371181	\$1250.00

NOTE: The above number and price schedule does not include dewar.

1. After several requests we have developed an extended rigid dipper for the Lab 20 dewar. The overall height of the dipper is the same but the extended cup allows end user to retrieve an increased amount of LN2 with each dip (approximately 3.5oz.). The part number for this is 11555669 and list price is \$106.

For copies of past Tech Tips or for more information on maintaining your nitrogen storage dewars please contact Jim Bachman at (952) 882-5168, Pager (612) 579-8367, Fax (952) 882-5175.
